## OBJECTIVE

I'm a passionate Software Engineering student with a deep love for creating innovative solutions through technology. My journey in programming began in high school when I built my first website, and I've been hooked ever since. What excites me most about software development is the ability to turn creative ideas into functional applications that can make a real difference in people's lives. I enjoy the problem-solving aspect of coding and the continuous learning that comes with staying current in this rapidly evolving field.

## EXPERIENCE

Well I have experience in Assisted with events and activities. I'm currently seeking internship opportunities where I can apply my skills, learn from experienced professionals, and contribute to meaningful projects that challenge me to grow as a developer.
